

PARTNERSHIP CONCEPT NOTE

On My Way · The Global Call · MESA Institute

Youth Policy Implementation | Youth COP 2026 | August 30 – September 3

Proposed by: On My Way, The Global Call & MESA Institute

Lead contact: Victoire Mandonnaud – victoire@onmyway-app.com

Date: May 2026

1. WHY WE ARE REACHING OUT

Everywhere in the world, local actors — youth organisations, civic hubs, community associations, diplomatic missions, and diaspora networks — hold a critical asset: **direct knowledge of what their communities need, and the relationships to act on it.**

Yet this energy remains largely unmobilised, for lack of adequate infrastructure to channel it into coordinated, measurable action. Local intelligence rarely reaches the institutions that could act on it. Policy proposals rarely reach the communities that need to implement them. And commitments — when made — are rarely tracked.

This is the gap our partnership addresses.

On My Way, The Global Call and MESA Institute have built an integrated pipeline — from citizen mobilisation to public policy, and from public policy to concrete action — designed to connect local actors to a global infrastructure of change.

We are reaching out to invite your organisation to join this pipeline as a local relay — a partner who knows their city, has access to civic and institutional networks, and is ready to coordinate locally what is designed globally.

2. OUR INFRASTRUCTURE: THREE PLATFORMS, ONE MISSION

Our work is organised through a three-tier pipeline, designed to connect local intelligence to global policy — and global policy to on-the-ground implementation:

01 THE GLOBAL CALL The Network	02 MESA INSTITUTE The Policy Layer	03 ON MY WAY The Action Layer
A youth mobilisation network active in 170+ countries. The Global Call identifies local priorities, connects civic actors, and drives change agendas at	The analytical partner that transforms grassroots insights into concrete policy proposals. MESA mobilises fellows and experts to design programmes that	The platform that makes implementation visible. Post action items, track commitments, connect actors to opportunities and

every level — local, national, and international.	institutions can adopt, fund, and monitor.	funding. What gets posted, gets done.
---	--	---------------------------------------

Together, the three form a coordination loop: mobilise → analyse → implement → feedback → refine.

3. WHAT WE PROPOSE

We propose a structured partnership built around four concrete axes, which can be activated progressively depending on your context and capacity.

Axis 1 – Mapping local priorities and civic actors with On My Way

We invite you to identify, with your network, 2 to 3 of the most urgent local priorities for youth and community development in your area. These priorities — whether they relate to employment, mental health, education, housing or civic participation — are integrated into our The Global Call pipeline, analysed by MESA Institute, and translated into concrete policy proposals – and actions through On My Way.

Where relevant, this mapping can extend to physical spaces: youth centres, training facilities, health spaces, welcome and inclusion hubs, cultural centres. These spaces do essential, often invisible work — and connecting them to a global infrastructure makes them visible, supported and fundable.

Axis 2 – Connecting the local ecosystem to the global network with The Global Call

The Global Call maps youth organisations, associations and civic actors in your area — at no cost. This mapping connects the local ecosystem to our 170+ country network, regularly generating unexpected synergies, funding opportunities, and collaborative partnerships.

Your role: help identify and reach the actors who should be part of this network. You become the entry point through which your city or country joins a global infrastructure of civic action.

Axis 3 – Participation in the Youth COP (August 30 – September 3, 2026)

Our Conference of Parties for youth policy implementation (COP) is the flagship event of our pipeline. It brings together governments, civil society organisations, diaspora leaders and youth representatives around national agendas defined locally and coordinated globally.

In 2026, the COP runs from August 30 to September 3. We invite your organisation to be represented — by animating a local hub in your city, sending representatives to plenary sessions, or both.

During the 5 days of the COP, each coordinator hub animates a local space. This can take different forms depending on context: a working session with local youth, a meeting with government stakeholders, an open participatory workshop, or a hybrid format. The key: insights produced locally are fed in real time into The Global Call and contribute to the global event agenda.

Four Themes for Change — the COP framework:

- Self — courage, agency, personal leadership
- Community — collective organisation, local mobilisation

- Institutions — institutional trust, citizen participation
- Systems — public policy, infrastructure, structural change

Axis 4 – Analytical support via MESA Institute

MESA Institute can mobilise fellows and experts to analyse priorities submitted by your organisation and transform them into actionable policy proposals. This analytical work directly informs programmes deployed on On My Way, and can contribute to bilateral cooperation agendas, advocacy strategies, or grant applications your organisation pursues.

4. WHAT WE ASK & WHAT WE OFFER

WHAT WE ASK OF YOU	WHAT WE OFFER
• Identify 2–3 local priorities to integrate into our pipeline • Designate a focal point for coordination within your organisation • Mobilise your local network to connect civic actors to the platform • Participate in the Youth COP (Aug. 30 – Sept. 3, 2026) • Share your local knowledge and stakeholder relationships	• On My Way platform — free access for your hub and local network • The Global Call — mapping of local civic actors and connection to 170+ countries • MESA Institute — analysis of local priorities and development of concrete policy proposals • Official role as COP 2026 Local Coordinator with international visibility • Full toolkit: mapping forms, facilitation guides, tracking spreadsheets • No financial contribution required

Important: we are not asking for funding. We are looking for partners who want to connect their local ecosystem to a global infrastructure — and ensure that commitments made translate into concrete, measurable action.

5. TIMELINE

May – June 2026	Partner onboarding · distribution of mapping tools · identification of local priorities and government stakeholders · launch of youth centre survey
-----------------	---

June – July 2026	Submission of mappings and priorities · MESA analyses submitted data · first programmes activated on On My Way · preparation for COP sessions
June 30 – July 2	Global Shapers Annual Summit: presentation of mapping results · meeting with On My Way & MESA teams · defining each hub's role for the COP
Aug. 30 – Sept. 3	Youth COP: local hub animation · insight collection via The Global Call · definition of national agendas with success markers · connection to the global network
September 2026+	Programme deployment on On My Way · tracking of COP commitments · consolidation of the coordinator network · iteration and recognition of pilot hubs

6. NEXT STEPS

To join the project and activate your organisation as a local coordinator, we invite you to:

1. Reply to this note to confirm your interest — we will follow up with a 30-minute onboarding call
2. Identify within your team a local priorities lead and a COP coordination lead
3. Share 2 to 3 local priorities you would like to see integrated into the pipeline
4. Block the key dates: COP (August 30 – September 3)
